

Constant Contact Integration

To integrate your Constant Contact account with your Engagifii workspace, you will need a specific set of unique credentials.

Following are the steps to follow to connect through the integration process

Step 1

- Open the [V3 API Developer Portal](#) and click **My Applications**.
- Click **Log in**, then enter your user name and password.
- Click the **My Applications** tab, then click **New Application**. A new popup will open up.
- Enter a new name for your application and select the options as follows:
 - Authorization Code Flow and Implicit Flow.
 - Long Lived Refresh Tokens
- Click on Create

Step 2

- Click on the Edit button located on the right of the newly created application.
 - Copy the **API Key(Client Id)** visible on the screen for usage during connection.

App Details

Created May 29, 2023, 9:24:20 AM • Last Updated May 29, 2023, 9:24:20 AM

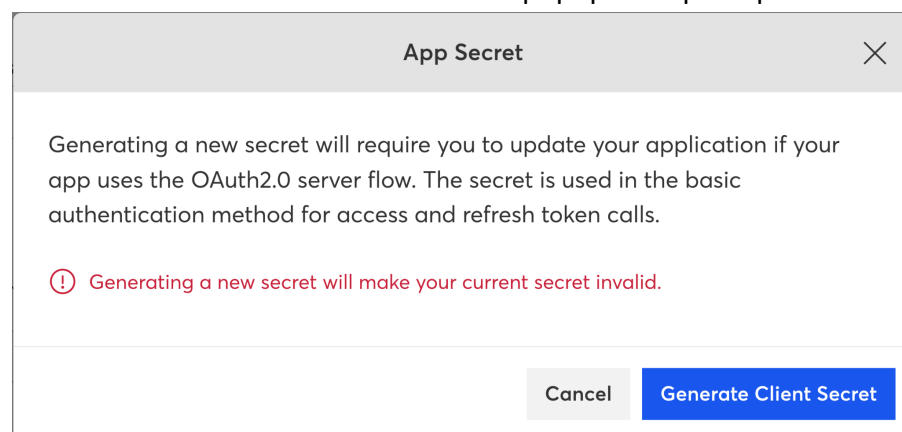

API Key (Client Id)

Rate Limit: 10,000 requests per day and 4 requests per second

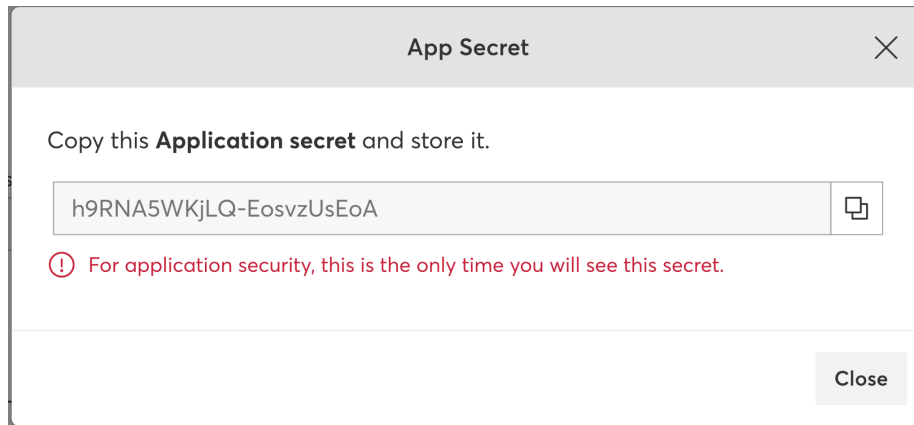

79f8bfe9-0f88-4a53-888b-34ff9c211c0c

Generate Client Secret

- Click on the Generate Client Secret button. A small popup will open up.

- Click on the Generate Client Secret button again. A new popup will open up.

- Copy the **Application Secret for future reference as Secret Key**. This will not be visible hence must be stored safely for next steps. Then close this popup.
- On the current page, you will see a section to add the Redirect URL the text input shown in the below text area. The Redirect URL is mentioned in the Connect Pop-up.

Redirect URI

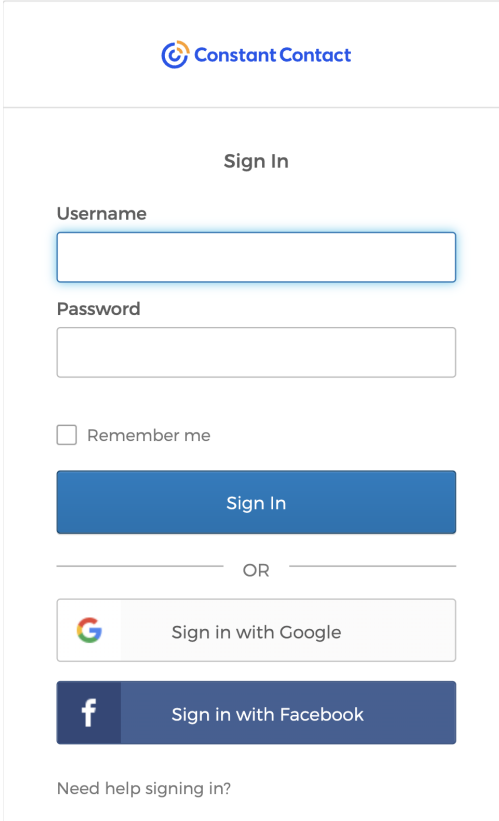

The authorization server sends users here after they grant access to this app; default redirect is https://localhost.

✎ -

- Click on the pencil icon beside the text box. Enter the provided Redirect URL and click on Confirm.
- Lastly, click on the Save button at the top right corner to save all the settings you have added.

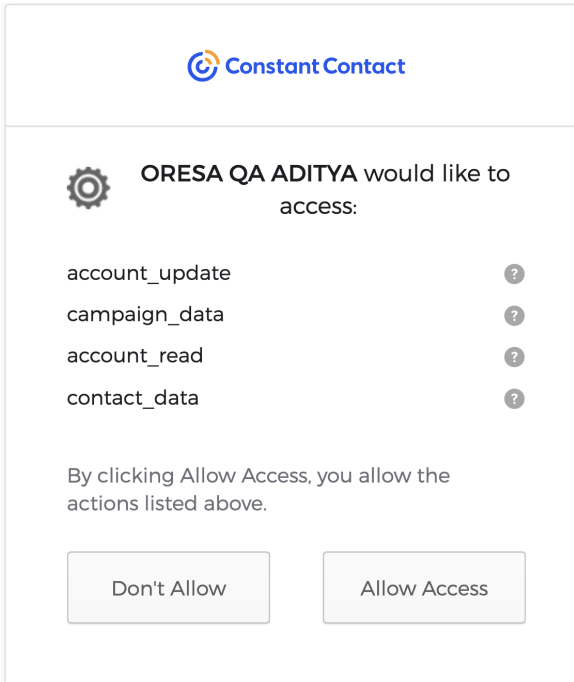

Step 3

- Login to your Engagifii workspace and navigate to Settings & Configurations > Communications > Integrations tab.
- Click on the Connect button in the Constant Contact box at the top of the page.
- In the popup, enter the API Key and Secret Key that we had derived in the previous steps. Click the Connect button.
- You will be redirected to a new tab for verifying the account credentials and identity. Please add your login credentials to verify your account.

The image shows the Constant Contact sign-in interface. At the top is the Constant Contact logo. Below it is the heading "Sign In". There are two input fields: "Username" and "Password". Below the password field is a checkbox labeled "Remember me". A blue "Sign In" button is positioned below the checkbox. A horizontal line with "OR" in the center separates this from the social login options. There are two buttons: "Sign in with Google" (with the Google logo) and "Sign in with Facebook" (with the Facebook logo). At the bottom, there is a link that says "Need help signing in?"

- Upon successful login credential verification, you will be asked to allow access to post information into your Constant Contact account.

The image shows a permission request dialog from Constant Contact. At the top is the Constant Contact logo. Below it is a gear icon followed by the text "ORESQA ADITYA would like to access:". Below this is a list of permissions: "account_update", "campaign_data", "account_read", and "contact_data". Each permission has a question mark icon to its right. Below the list is the text "By clicking Allow Access, you allow the actions listed above." At the bottom are two buttons: "Don't Allow" and "Allow Access".

- Click on **Allow Access** to finalize the connection between the 2 platforms.
- Once the connection is established you will be redirected to the Engagifii platform where you began your journey.
- During the entire process, please make sure to NOT close any tab or window in Step 3 as the entire process has been automated for seamless user experience.

Note: If you have doubts, before changing the "Constant Contact Integration Settings", please contact Engagifii Customer Care Team at 'support@engagifii.com'
